

Partner with the Denney Group

Facilitating Product Sourcing Planning and Service Requirements Processes with Food Banks

Why Work with The Denney Group?

With three years of experience in the charitable food sector and over a decade in consulting, I bring a unique perspective to food bank planning. I led the cohorts of food banks that developed Feeding America's Product Sourcing Planning Process and Service Requirements Process, including the templates and associated resources.

This hands-on leadership in creating these tools and resources, in collaboration with food banks across the country, sets me apart. I understand not only the frameworks but also the real-world challenges and opportunities food banks face, enabling me to facilitate processes that are practical, effective, and tailored to your organization's needs.

Services Offered:

- **Customized Product Sourcing Planning:** I start by working closely with your food bank to understand your specific needs and goals for the Product Sourcing Planning Process. Using the six-step framework and resources I helped design, I guide your team through creating a strategic plan that enhances operational efficiency, strengthens collaboration, and ensures equitable food distribution.
- **Tailored Service Requirements Planning:** I guide your team through the Service Requirements Process using the tools and templates developed by the cohort I led, including the Service Area Assessment (SAA) and Operational Response Plan (ORP) templates. Together, we'll navigate this equity-focused planning process to create actionable strategies that improve food access and meet your organization's specific goals.

What Could This Look Like?

Every food bank is unique, so my facilitation is designed to fit your organization's needs:

- **In-Person Retreat:** I'll come to you and lead a multi-day retreat, facilitating your team through the Product Sourcing Planning Process or Service Requirements Process in an engaging, collaborative setting.
- **Virtual Facilitation:** Alternatively, we can hold a series of virtual meetings over a spaced period of time, where I guide your team step-by-step through the process, providing support and expertise every step of the way.

What Sets the Denney Group Apart?

- **Collaborative Facilitation Style:** Known for creating inclusive, engaging environments that inspire trust and ensure all voices are heard.
- **Equity-Driven Approach:** Committed to addressing race and place-based disparities in food access to create solutions that serve all communities.
- **Values-Driven Leadership:** Guided by principles of equity, empathy, and actionable results in all aspects of my work.

Let's Work Together!
